# *Alberene Stone*

---

At the present time  
stands at the head of any natural production  
which has thus far been found,  
suitable for the purposes requiring a  
sanitary, non-porous and durable stone.

It is of a gray color, having a fine, close grain of uniform density. A large percentage of the product is beautifully veined with a white stone, the presence of which evidences the general sanitary excellence of the entire output, and distinguishes it from other stones less suited for the purposes indicated.

Possessing a uniform hardness, it wears as smooth as polished marble, and is therefore as sweet and clean after years of use as when first put into position.

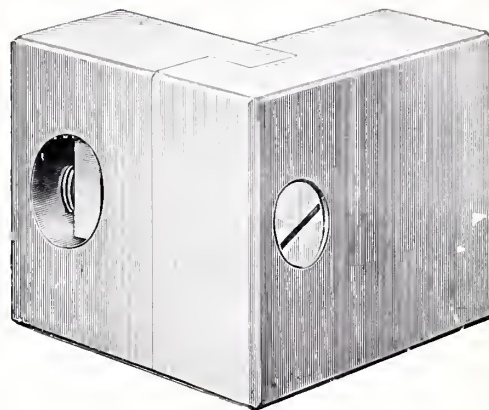

This stone is found only at the extensive quarries of the Alberene Stone Co., at Alberene, Va., and, on account of its sanitary excellence, is well suited for the various purposes illustrated in the following pages.

These illustrations are intended to represent mainly the **ALBERENE STONE** goods. Each article shown may, however, be furnished with any appropriate fittings which the purchaser may desire.

# The Character— of the Workmanship

Employed in the manufacture of these goods is unsurpassed. The Sinks and Tubs are all tongued and grooved throughout, each slab being locked with the next and every joint held firmly in place by bolts and nuts.

The care used in constructing this joint enables us to furnish a Tub or a Sink as thoroughly reliable as though it were carved from

**A Solid Block of Stone!**

## Our Trade Mark Plate

Appears plainly on the face of all goods leaving our hands. This insures a reliable and substantial guarantee of excellence.

This guarantee is not an empty statement, but means clearly and definitely that we will repair or replace promptly and without cost, any tub or part of a tub which shows defect, either from a flaw in the stone or from imperfect workmanship.

### Extension Sink Leg.

Painted Iron.....Each, \$1.50  
 Galvanized Iron.....Each, 2.00

This Leg can be used on Sinks varying in width from 18 to 24 inches.

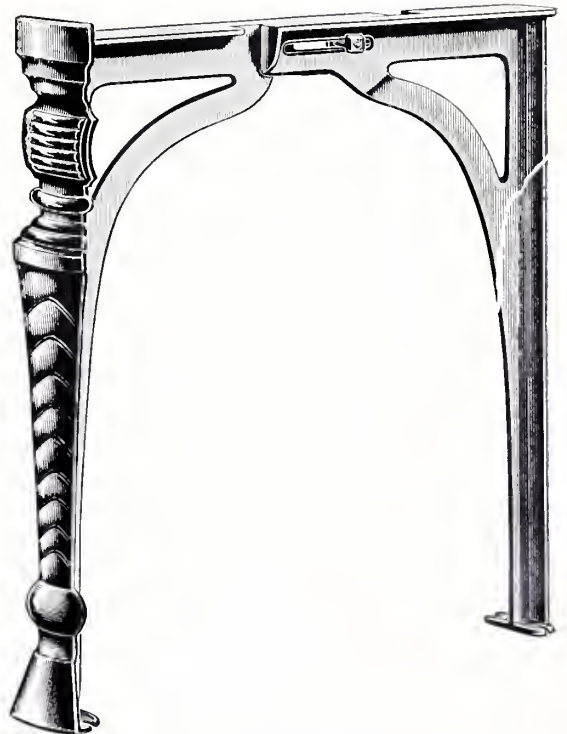

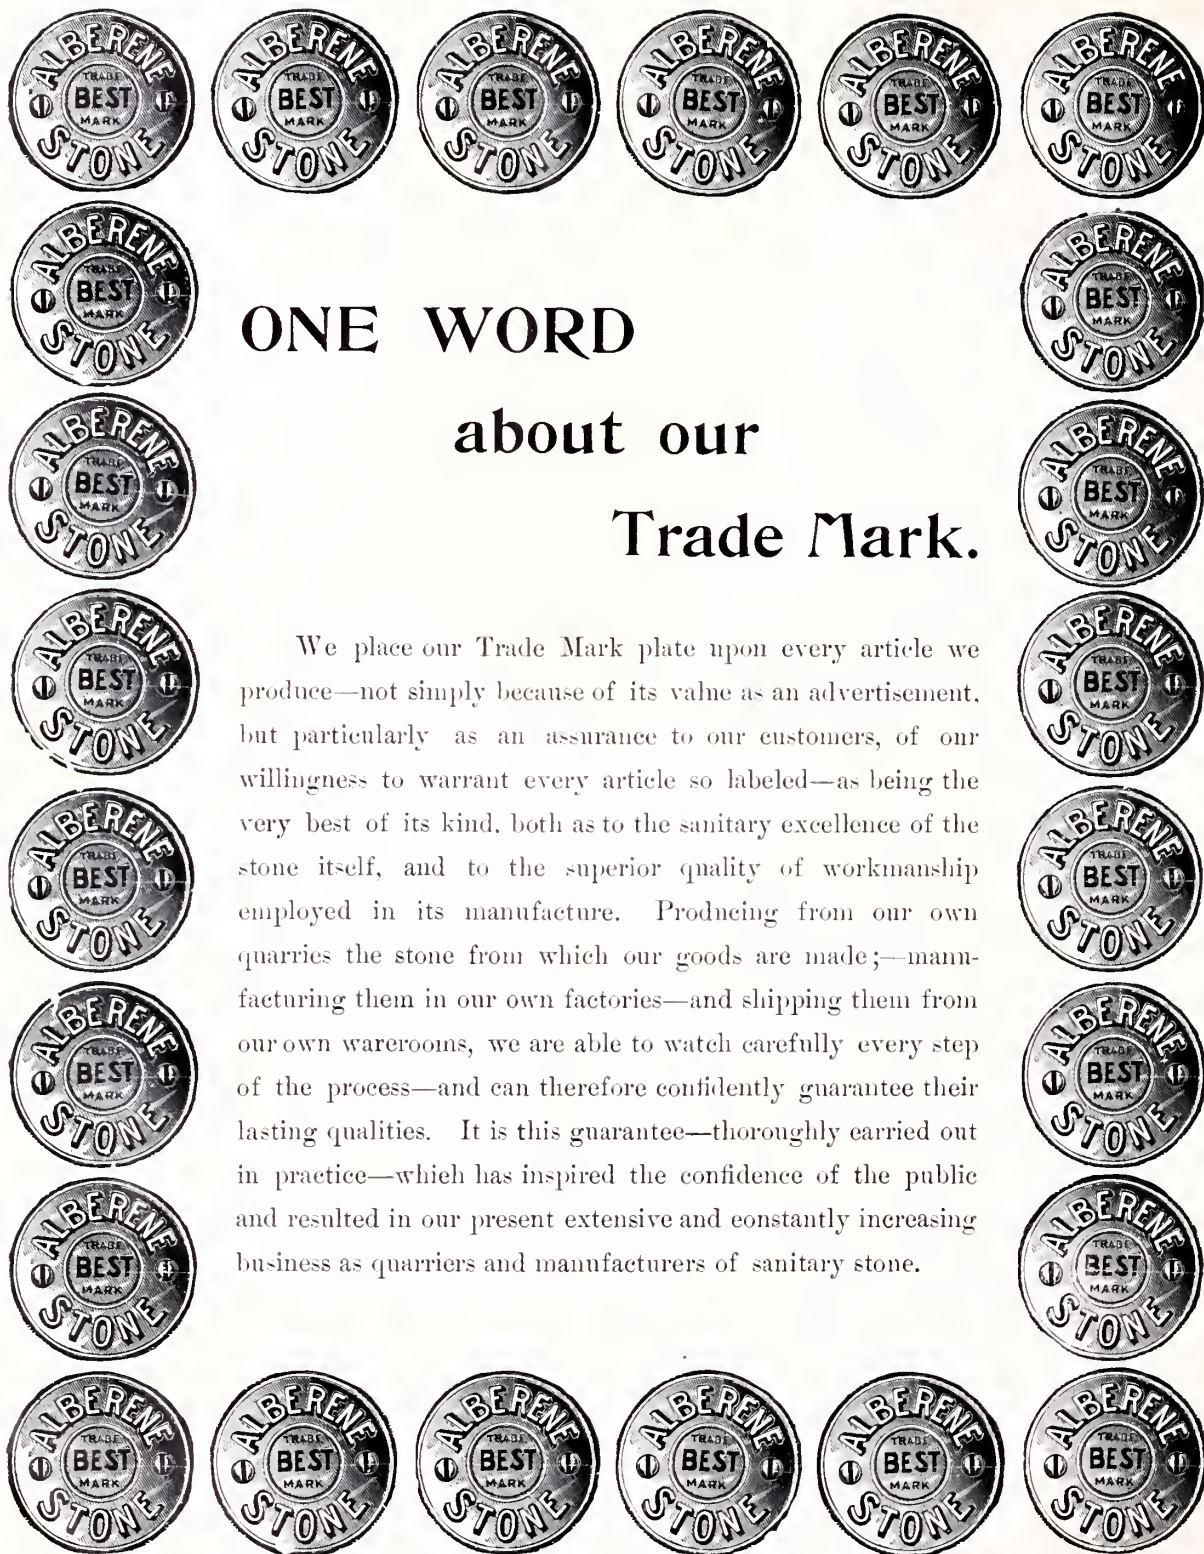

PLATE 185.

ONE WORD

about our

Trade Mark.

We place our Trade Mark plate upon every article we produce—not simply because of its value as an advertisement, but particularly as an assurance to our customers, of our willingness to warrant every article so labeled—as being the very best of its kind, both as to the sanitary excellence of the stone itself, and to the superior quality of workmanship employed in its manufacture. Producing from our own quarries the stone from which our goods are made;—manufacturing them in our own factories—and shipping them from our own warerooms, we are able to watch carefully every step of the process—and can therefore confidently guarantee their lasting qualities. It is this guarantee—thoroughly carried out in practice—which has inspired the confidence of the public and resulted in our present extensive and constantly increasing business as quarriers and manufacturers of sanitary stone.

# Alberene Stone Laundry Tubs.

High Back, Shelf and Return Ends, Single Combination Setting.  
Especially Adapted for Institutional Use.

By this style of Tray and Setting, Ranges of indefinite number and length may be furnished.

Double Ranges set back to back have the pipes brought up between the high backs, which can be capped on top and at ends, making a very sightly and sanitary arrangement.

We do not furnish Faucets, but Tubs with Faucet holes in back will be sent unless otherwise ordered.

# Alberene Stone Combination Laundry Tub and Kitchen Sink.

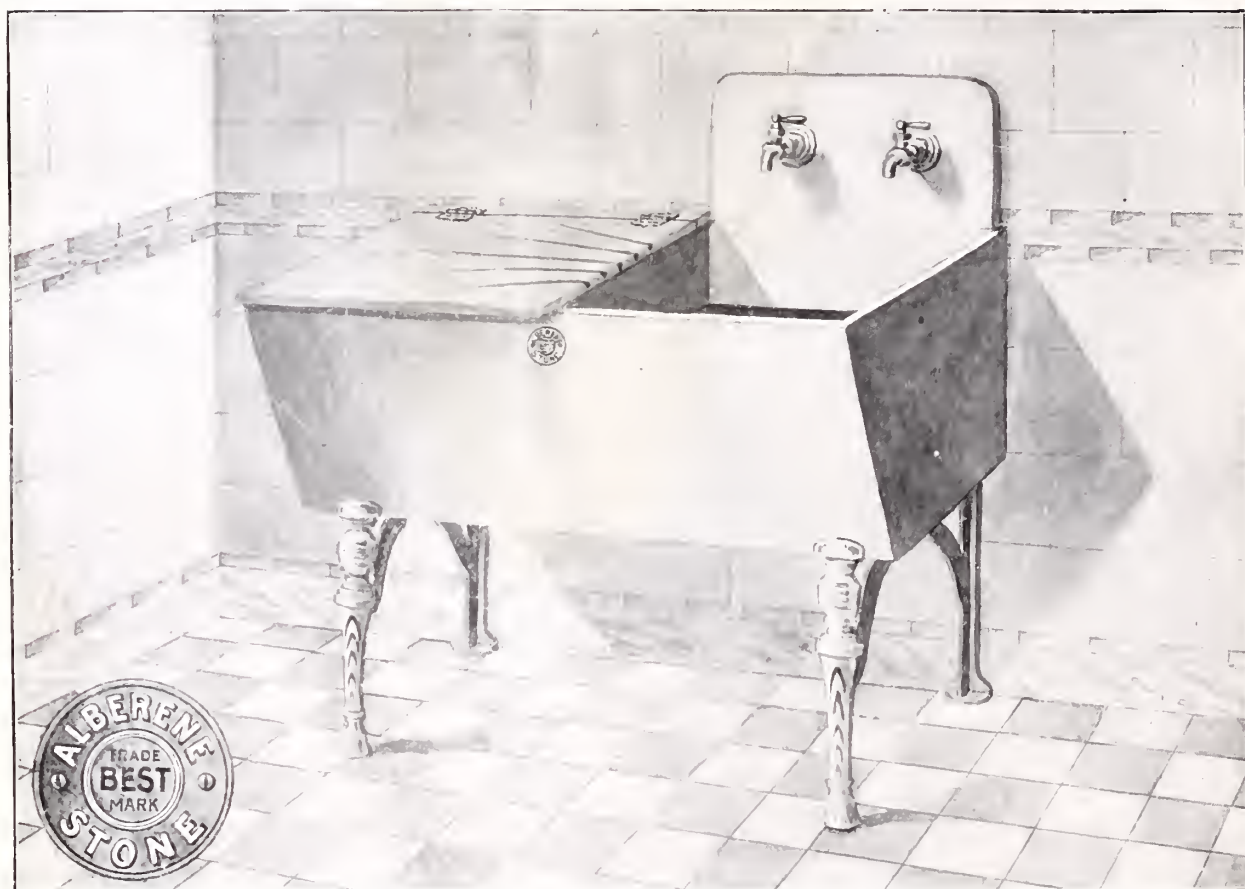

PLATE 136 D.

## DESCRIPTION.

Sink appears in plate at right hand end, though it can be furnished at either end if desired.

The Tub is furnished with Hinged Cover, grooved, to serve when closed as Drain Board to the sink. It is also furnished with Brass Plug, and the Sink with Brass Strainer—all Mounted on Painted Iron Legs.

## DIMENSIONS.

NUMBER.	LENGTH OVER ALL.	TUBS. EACH.	SINK.	LIST.
